Route 8, Frederick, Md. 21701
5/26/73

Dear Walter,

I appreciate, very much, your taking time to seem me Thursday as I am pleased that your recollections of what to those not party to it may seem so improbable.

Perhaps it would build Mr. Clapp's confidence in what I have told him about what should have been in the discovery material and wasn't if you would, as you offered, initial the letter I have written him on this.

If any of it is not consistent with your recollection, please correct it.

I enclose two carbons, one in the event you would like to keep it.

Again, our thanks.

Sincerely,

Harold Weisberg
